

# FASTrack PrePaid

Vehicle Tracking & Theft Recovery Solution

Simple. Fast. Economical.

This vehicle tracking solution powered by Numerex combines turnkey asset and theft recovery options with a low cost of ownership. Economical and easy to deploy, this solution provides increased ROI, productivity, and enhanced safety for employees and assets. FASTrack PrePaid's cloud-based platform is network agnostic and encompasses global cellular or satellite plans offered through one point of contact.

*FASTrack PrePaid delivers an affordable, easy-to-use vehicle recovery solution, creating new revenue streams that add value at the point-of-sale.*

## FEATURES

- Remote starter disable and door unlocking
- Fluid level sensors with alerts and notifications
- Customizable geofencing and viewable route history
- Vehicle activity monitoring including speeding, idling, and maintenance reminders

## BENEFITS

- Anywhere, anytime monitoring and control of tracked vehicles
- Increased asset security and recovery in the event of theft
- Built-in safety measures to monitor driver behavior
- Maintenance alerts avoid costly repairs
