

SmartGuide™

Fleet Tracking Solution

Powerful. Intelligent. Aware.

SmartGuide™, powered by Numerex®, offers a turnkey solution for fleet management, driver behavior, and monitoring of tracked drivers and vehicles. This solution deploys rapidly, increases ROI, improves productivity, and enhances safety for drivers and vehicles. SmartGuide's cloud-based platform is network agnostic and encompasses global cellular or satellite plans offered through one point of contact.

FEATURES

Driver, vehicle, and summary fleet reporting, featuring email and text alerts

State mileage reporting, driver behavior alerts

Point of interest routing and route replay

Integrates with GARMIN® fleet in-cab devices

Supports GIS data integration

BENEFITS

Anywhere, anytime monitoring of tracked drivers and vehicles

Increased driver and vehicle safety

Reduced maintenance costs

Improves fleet time management and workforce utilization

Route mileage and maintenance optimization
